Osolle
Long iLash Power Serum

6ml e • 0.21 Fl.Oz.

This innovative high-performance serum formulated with advanced polypeptides helps amplify the length, thickness and volume of eyelashes with a simple once a day application. It is ideal for women and men with brittle, weak, thin or short lashes and eyebrows.

For an irresistible look with fantastically long lashes giving you star appeal!

This innovative eyelash growth product helps your lashes grow to an impressive length and expressive thickness. The revolutionary effect of this unique serum is based on the latest research findings.

The innovative active-ingredient formulation, stimulates the lashes to grow long and thick.

When regularly applied, you can expect a clearly visible increase in lash length and density within two weeks.

In addition, the lashes become more voluminous and look healthy and strong.

Nourishing active ingredients supply the lashes with moisture and increase their resilience.

Precious eyebright contributes to a gentle application:

*Ensures a relaxed eye zone *Silicone-free, paraffin-free.

*Without parabenes

*Without prostaglandins.

The latest in-vivo studies revealed the following results:

After 14 days an increase of lash length and lash density of up to 46%

After 28 days an increase of lash length and lash density of up to 66%

After 42 days an increase of lash length and lash density of up to 72%

One serum is for up to three months supply.
